

XM traffic and Weather provides a service to me that I choose to Subscribe to. No one should take my Right to that away! The National Association of Broadcasters are trying to stop this only because they feel threated by it because it provides a better quality of service that they can't provide. What it all comes down to is they are afraid of loosing money, Period! This is nothing more than greed! If I own a store and someone decides to open another store selling the same produces can I stop them from doing this just because they are doing a much better job than me? No! It is called compitition and they are afraid of it! That is just a part of this great country that we live in! All that is left to say to the Association of Broadcasters is if you can't take the heat, Get out of the Kitchen!

An Angry

XM FAN!
